

Delphi Consensus Study of an *M*-Health Intervention to Improve Coparenting Relationship
Quality between Parents of Children with Challenging Behaviours

Nicole Ennis-Oakes (BPsyc. Hons)

This thesis is presented in partial fulfilment of the requirements for the
degree of Master of Clinical Psychology, School of Psychology,
University of Newcastle, Australia.

January, 2021

Acknowledgements

To my supervisor Linda, thank you for your expertise, guidance and ongoing support throughout this research project. Your dedication and insight inspired me along the way and I am greatly appreciative of your knowledge, patience and wonderful sense of humour.

To my amazing friend and colleague, Jaime Wroe. I cannot thank you enough for the time and advice you afforded me throughout the duration of this research. I will be forever grateful for your generosity.

To the professional panel members that donated their time to this research I am extremely grateful. The messages took significant time to read and rate and I truly appreciate your dedication and expertise.

To my incredible husband Phil. Always there to support and encourage me. None of this would have been possible without you holding the fort for our family whilst I was lost in this journey. I am eternally grateful for you.

Declarations

Statement of Originality

This thesis contains no material which has been accepted for the award of any other degree or diploma in any university or other tertiary institution and, to the best of my knowledge and belief, contains no material previously published or written by another person, except where due reference has been made in the text. I give consent to this copy of my thesis, when deposited in the University Library*, being made available for loan and photocopying subject to the copyright Act 1968.

*Unless an Embargo has been approved for a determined period.

Acknowledgement of Collaborations

I hereby certify that the work embodied in this thesis has been done in collaboration with other researchers. I have included as part of this thesis a statement clearly outlining the extent of collaboration, with whom and under what auspices. I contributed to the development of the research questions, undertook and interpreted the statistical analyses, and wrote the body of the work with editing provided by my primary supervisor, A/Prof. Linda Campbell. A/Prof. Linda Campbell contributed to the development of the research questions, the formulation of the methodology, and the editing of the manuscript. Mrs Freya Powe contributed to the original design of the study and the initial development of the methodology. Ms Jaime Wroe contributed to the formulation of the methodology and the editing of the manuscript.

Statement of Authorship

I hereby certify that the work embodied in this thesis contains a manuscript of which I

am a joint author. I have included as part of the thesis a written statement, endorsed by my supervisor, attesting to my contribution to the joint work.
