DEDICATION

To my loving and supportive wife Sarwat, my daughters Elishbah and Anusha and my mother and father for providing support, inspiration and motivation
ACKNOWLEDGEMENTS

I would like to thank the many people who have contributed to this research. I express my appreciation to my supervisor Dr. Guilherme Pires for his timely feedback, guidance and comments. I also acknowledge the support of the management of Higher Colleges of Technology, in particular Dr. Sulaiman Al Jassim for approving this research project. Finally, I owe a debt of gratitude to my colleagues Ms. Monica Gallant, Ms. Cheri Macleod and Dr. Antoni Szubarga for their creative ideas and professionalism. Without the support of these people this dissertation would have never become a reality.
